

TheConfidentHorseRider

Confidence Workshop For Riders (Unmounted)

This is a fun but intensive day packed full of strategies and information to help you re-gain confidence, remove anxieties and start to work towards your riding dreams!

Morning: Understanding why we cannot just 'get rid' of negative thoughts and why it seems impossible to change how we feel and react by willpower alone. How we can make positive changes at a deeper level by using self hypnosis, performance coaching, visualisation, NLP (Neuro Linguistic Programming) and Hypnotherapy sessions, which are specifically designed for riders to overcome fears and build confidence. Lots of great coaching tips and ideas plus a full length hypnotherapy session designed to help you change how you feel, think and react, therefore enabling you to remain calmer and feel more in control.

Afternoon: We design an easy to follow method of enabling you to utilize your experience of hypnosis earlier in the day and show you how you can adapt this as you build in your confidence. We establish a positive plan for the future. Ongoing support is always available.

Refreshments: We will supply tea/coffee and juice. Please make sure you bring your lunch and any snacks you may need.

Main Workshop: 9.30am – 4pm Information Pack provided.

After completing this workshop, you will be added to the Confident Horse Rider's Club. Here you can share your experiences as you progress, upload pictures, get to know others who have been on the courses and ask questions.

Options:

Private Full Day Workshop - £222 plus travel

2 Sharing a Private Day Workshop - £155 each, plus travel

3 Sharing a Private Day Workshop - £115 each, plus travel
